

[Program of the 4th International Workshop](#)
["Modern technologies of plastic casting"](#)

Day 1, October 04, 2017, Wednesday

09:00 Registration of participants and morning coffee

09:30 Opening. Welcoming speech of the organizers - OCP "Profession", SKZ, Messe Dusseldorf Moscow

09:45 MIKHAIL L. KATSEVMAN, POLYPLASTIC GROUP, Russia

The Russian market of thermoplastics for injection molding.

10:15 ELENA RYBINA, OOO A.SCHULMAN, Russia

Modern polymeric materials, compounds, masterbatches for optimal production of cosmetic packaging with unique properties and design

11:00 MIKHAIL ANISIMOV, SCHUELKEN FORM, Germany

Modular standardized molds for packaging.

Made in Germany

11:45 Coffee break

12:15 ILYA ARTEMIEV, WITTMANN-BATTENFELD, Austria

Features of injection machines of the company Wittmann Battenfeld.

Peripheral equipment and integration. Special technologies

13:00 Lunch

14:00 ALEXANDER DOCUCHAEV, ZHAFIR, Russia

Aspects of applying TPA in thin-walled packaging

14:45 IGOR BARVINSKY, JSC SISOFIT, Russia

The problem of uneven, low and high gloss in thermoplastic molding

15:30 Coffee break

16:00 JULIA CHUMARNAYA, LLC "KISTLER RUS", Switzerland-Russia

Embedded Control Systems for Injection Molding Processes

17:00 Discussion on the results of the 1st day.

18:00 Banquet

2nd Day, 05 October 2017, Thursday

09:30 VLADIMIR DUVIDZON, AB UNIVERSAL, Russia

Additive technologies (AT) in the technological preparation of production of thermoplastic parts by injection molding

10:15 VALERIY KOROLEVICH, ZHAFIR, Russia

Improving the efficiency of injection molding

11:00 Coffee break

11:30 YURIY LOZHECHKO, OOO BIPLAN, Russia

Experience in organizing domestic molding productions of plastic products. Part 1 - Methodological recommendations and organizational and legal issues

12:15 VLADIMIR DUVIDZON, AB UNIVERSAL, Russia

Features of casting thick-walled products

13:00 Lunch

14:15 STEFAN FLEISCHMANN, SKZ, Germany

Quality management of production and finished products

15:00 YURIY LOZHECHKO, OOO BIPLAN, Russia

Experience in organizing domestic molding productions of plastic products. Part 2 - Solving technological and technical problems when starting a new production

15:45 Discussion on the results of the seminar. Presentation of certificates.
